27 years into teaching and this is by far one of the best professional development books I have ever read! This book was clearly written by a classroom ELA educator who can relate to all classroom ELA teachers! The layout, anecdotes and instructional information in this book is intentional, focused and relevant to all ELA educators (6th through 12) This book was clearly written from the perspective of a seasoned ELA educator! The chapters contain relatable and applicable strategies, skills and thoughtful planning approaches! There is so much to glean from each page of this book with regards to teaching ELA in the middle and secondary classrooms. This book is my "new Mentor" for the year!
